Frontend developer

Mobile No: +918788576705

Email Id :pavanbid050@gamil.com

Address: pune MH -411001

## OBJECTIVE

- A motivated individual with in-depth knowledge of languages and development tools, seeking a position in a growth-oriented company where I can use my skills to the advantage of the company while having the scope to develop my own skills

## PROFESSIONAL SUMMARY

- Extensive experience with developing professional web applications using **HTML5, SCSS, CSS3** and **JSON**.
- **Angular, TypeScript** are some of the front-end frameworks I've had experience with. Implemented Angular, an application framework that combines web applications with
- component based **MVC** capabilities for efficient development and testing. Worked on the **Bootstrap and Material CSS** and **PRIMENG** frameworks.
- As part of my responsibilities, I checked cross browser compatibility of different elements and tags using different browsers such as **Internet Explorer, Google, Chrome, Firefox, and Safari Visual Studio Code and Notepad++** have experience with.
- Experience as a developer of Angular applications.
- A good understanding of **Typescript** and **CRUD** Operation.
- Utilize Chrome Developer Toolbar for **TypeScript debugging**.
- Having experience with **Agile Methodologies**.
- Experience with **Software Development Life Cycles (SDLC)** which include designing, developing, testing, and implementing software.
- As part of work experience used **JIRA tool** for the defect tracking.
- Managed and developed Angular **components, controllers, directives, components, services, routings and events**.
- Also worked with Routing Guards Like **CanActivate, CanActivateChild, CanDeactivate, canLoad and Resolve**.
- Working experience with Angular frameworks on **versions 2 to 13**.
- A good understanding of how to use **JavaScript** and **Angular** to create Basic
- Components.
- Work experience with a team including discussions, designs, work estimations, code review, peer review, daily work status, etc.
- I have experience integrating **RESTFUL** web **APIs**.

- Understand the **Document Object Model (DOM)** and the **DOM** functions.
- Experience with the version control and source code management in **GIT HUB**
