

Akanksha Malwade

IOS DEVELOPER

OBJECTIVE

Highly skilled and experienced iOS Developer with over 3 years of proficiency in developing new features. Seeking a challenging role to leverage my expertise in iOS development, collaborate with talented teams, and create innovative and impactful apps that enrich users' lives.

EXPERIENCE

Project - LinkedIn - Raja Software labs **iOS Developer**

Nov 2019 - Present

- Developed and maintained multiple new features on the LinkedIn Project, with a focus on user experience and performance optimisation, ensuring timely and within scope delivery of features.
- Hands-on experience with Swift, Objective-C, UIKit, Cocoa Touch framework, Jira, GitHub, and design patterns.
- Having knowledge of Figma, GraphQL, and REST API.
- Worked with different architectures and frameworks to enhance the functionality of the applications.
- Conducted code reviews and mentored junior developers to ensure high code quality.
- Held the responsibility of being a Topic owner for new joiners.
- Assisted in debugging and resolving complex technical issues, ensuring the smooth functioning of applications.

Project - Android Attendance System

- This project developed in ionic4 framework. A simple android app for managing attendance system within college.

Technology: HTML, Angular, MySQL, flask implemented in Python.
