Academic Projects

Title : Online Home Services

Platform : Java, Angular, Bootstrap, Spring, Jdbc, MySQL

Duration : 1 Month

Description : There are many domestic services we need regularly but fail to find a best possible service provider in the vicinity on time. Our web system provides a platform where small scale service providers can showcase their service details and customers can use these services whenever needed. This will provide an advertising platform for the providers as well as best services to the customer by referring to the customer review of providers.

Title : SPIRAL PATH ROBOTIC ARM
