- I have 1.7 years of experience in React js from 2022 to Aug 2023.
- I have been actively engaged in front-end development since 2021, during which I have honed my skills in various key technologies and frameworks. Over 11 months.
- I have gained proficiency in HTML, CSS, and JavaScript, laying a strong foundation for web development. Additionally, I have delved deeper into the world of modern web development, mastering React and Redux for building dynamic and efficient user interfaces. My expertise extends to using HTML and Tailwind CSS to create well-structured and visually appealing web applications. I am passionate about staying up-to-date with the latest industry trends and continuously improving my craft.
