PROJECT:

Orphanage Management System

Orphanage Management System is developed in java. The project is developed for Management of Orphanage. To keep the records of students, record of employees, information of admission, donation of students through manual system is very complicated and not easy to handle. If any of the register is lost then, it causes loss of large amount of important data. Orphanage Management System solves all above problems and provides an easy way to handle all above tasks with use of computer. It also helps us to store these records permanently in the computer. So, there is no chance of loss of information.

Tic-Tac-Toe Game

Tic Tac Toe game is developed in Dot.net. It is a paper-and-pencil game for two players, *X* and *O*, who take turns marking the spaces in a 3×3 grid. The player who succeeds in placing 3 of their marks in a horizontal, vertical, or diagonal row wins the game.

Sale Supplements Product

Sale Supplements Product application is developed in java for online shopping purpose. This website is useful for customer. Customer is able to register and login into system. Customer is able to purchase product from this website have a facility to pay amount online. Customer can create his shopping cart and manage his cart.
