Skills

- Languages / Framework: **JavaScript | Node.js | React.js | JAVA | SpringBoot | C# | .NET | C++ | SQL**
- Tools / Softwares: **Visual Studio Code | IntelliJ | Visual Studio | Postman | GIT | Github | SVN**

Experience

Indus Valley Partners Pvt. Ltd., Noida —
Associate Software Engineer

JULY 2021- Present

- **REST API development/ maintenance in Node.js**
 - Developed API for fetching data from the company's database.
 - Wrote the node application using express framework in the standard ES module format.
 - Exposing endpoints as per client and business needs.
 - Also creating custom procs in the relational database to get the desired output for api requests.
- **API upgrade in SpringBoot -**
 - Exposed new endpoints for the user to access data from the company's datasource.
 - The process became much faster with api since custom sql queries were not required to write each time.
 - Handled exceptions after exposing endpoints.
- **Designed automated testing of APIs after upgrade-**
 - Wrote test suites for all the existing APIs in the project using Postman.
 - Integrated Newman in the testing process to test all the APIs from the command line.
 - Automated the testing using Jenkins periodically and after each upgrade (merge on git).
 - Testing results stored in html/pdf formats.
- **Bug fix in prod app (.Net app)**
 - Debugging the source code to locate the bug causing unwanted operations.
 - Resolved the bug in the prod app that caused multiple invalid items to be submitted without warning.
 - Also reduced load time on the home page of the app. The app loaded 50% faster.

Education

MAULANA AZAD NATIONAL INSTITUTE OF TECHNOLOGY, Bhopal, M.P.

Apr 2017-Apr 2021

- Bachelors of Technology In Computer Science and Technology : CGPA 7.48
- Ideal Academy, Indore, M.P.**
- 12th Percentage : 92.18%
 - 10th Percentage : 92.80%

Certificates
