

# Atul Mane

iOS DEVELOPER

+918600807076 | maneatul95@gmail.com | Pune, Maharashtra

## PROFILE

A self-motivated iOS developer with **2+ years of remarkable experience** in design, development, unit testing, maintenance and support of iOS mobile applications.

## SKILLS

- Swift, RxSwift, RxCocoa
- Unit test cases, Cocoa Touch
- Auto Layout, Size Classes
- SwiftLint, SwinjectStoryboard
- SwiftyMocky
- MVVM, MVC
- Agile methodology
- CICD with Azure Devops
- REST API integration
- FCM configuration
- Core Data, KeyChain
- Cocoa pod, Kingfisher
- Third-party Analytics integration (Firebase, Facebook)
- Localization
- API security with RSA Encryption
- iOS extension
- Git, SourceTree
- Github, BitBucket
- Firebase MBaaS
- Augmented Reality
- javascript, Google Functions
- Dart, Flutter

## EDUCATION

PGDMC-(64.87%) 2018  
BE IT-(68.13%) 2017.  
HSC-(69.16%) 2012.  
SSC-(73.45%) 2010 .

## LANGUAGES

English, Marathi, Hindi

## SOFTWARE ENGINEER, NIHILENT LIMITED, PUNE, INDIA — MARCH 2018-PRESENT

### WORK SUMMARY

- Continuously discover , evaluate, and implement new technologies to maximise development efficiency.
- Experience in Scrum and Agile s/w development methodologies.
- Familiarity with MVVM & MVC architectural design approaches.
- Hands on experience of cloud messaging API and push notifications.
- Handling secure client-server communication with RSA encryptions.
- Good understanding of data structures and algorithms.
- Strong debugging and problem-solving skills.
- Knowledge in Social Media Integration (Facebook, Twitter, etc).
- Familiar with UI design implementation using both Storyboards and NIB files.
- Created POCs on Augmented Reality using ARKit2 and Flutter.

### WORK EXPERIENCE

#### • Project's:

##### **NCash - ILMP.**

- ILMP is a platform based comprehensive rewards and loyalty management solution, which helps enterprises run end to end loyalty management programs from planning, execution, managing and analysing performance on the go.
- **Technology Stack:** iOS, Swift, Rxswift, MVVM, Localization, RSA Encryption, javascript.

##### **Connected Aircraft.**

- Connected Aircraft is the IoT based mobile application which helps the aircraft owner and pilots to monitor and control the state of their personal aircraft.
- It enables the user to view the list of aircraft he/she owns and displays all the vital matrix of the aircraft (Fuel, Battery, Oil Temp etc) on to a dashboard.
- **Technology Stack:** iOS, Swift, Rxswift, MVVM, CoreData, RSA Encryption, Kingfisher.

##### **Shopkart .**

- Shopkart is a platform for buyers and shop owners which helps users to find daily use items from the shops in your vicinity/ specified distance range along with the quantity needed. It then lists all the shops with the quantities available and total discount on offer.
- **Technology Stack:** iOS, swift, MVC, kingfisher, Location .

### ACHIEVEMENTS

1. Stood first in sports arena hackathon organized by Nihilent, April-2018.
2. Received the Nihilent Quarterly Appreciation Award for Augmented Reality Project in March-2019.
