- Video editing for Youtube.

## CAREER OBJECTIVE

To pursue a job opportunity in a competitive environment that will challenge me to push my boundaries and expand my knowledge in the field of computer science while allowing me to add value to the dynamics of the company

## PROJECT UNDERTAKEN

### ➤ BLOGGING SITE | <http://bitly.ws/wVqD>

Description: In this Project we had to create API's for registering a user as a Author , login of user with JWT authentication security, posting blogs, get lists of all blogs and update and delete Blog's.

### ➤ BOOK MANAGEMENT | <http://bitly.ws/wVqH>

Description: This project is similar to "Goodread", where the user can register ,login, upload ,update and delete book and also give feedback and rating on any book.

### ➤ SHOPPING CART | <http://bitly.ws/wVqP>

Description: This project is like any e-commerce website. To secure password we use BCRYPT and for user validation we use JWT token. We perform CRUD operation with products ,users, carts and orders.

### ➤ OPEN TO INTERN | <http://bitly.ws/wVr8>

Description: In this project we make API's so that companies can hire interns based on the college name.

### ➤ URL SHORTER | <http://bitly.ws/wVrd>

Description: In this project we use Redis server for implementation of caching. This is similar to Bitly.

- Language : JavaScript, Nodejs
- Framework : Express.js                      DataBase : MongoDB
- Project Undertaken : FunctionUp BootCamp

## SOFT SKILL
