

Sachin B Daingade

iOS Developer, Experience 5+ Year

8421478284 / 9422129695 | Sachin.daingade11@gmail.com | Pune

Summary

I have 5+ years of software development experience, mostly on the iOS platform. I started with iOS for building Native Apps. I did more than 20 Projects individually from the scratch level to Deployment.

Hands-on

e-Commerce App, Point Of Sale (POS), Online Food Ordering App, online Transport App, Service Booking App, Learning Management App, Enterprise App, Different Payment gateway integrations.

iOS Development (What I used)

Xcode - for all iOS development. **ARC** - for memory management. **Sqlite & Core Data**- persistence storage. **Bitbucket-Git**-for Repository. **APNS**- for providing Apple Push Notifications, **FCM**- firebase cloud messaging for Notifications. , **Crash Analytics** - bugs tracking & crash resport. **Google Analytics** - for observing how people use the app. **Custom Delegate**- for flexible codes. **CocoaPods**- for libraries. **AutoLayout** - for design. **GCD**- Grand Central Dispatch. **Payment Gateways**- ePay, Paypal, PayU Money, **DPS** and Other. **Map**- Google Map, Apple Map. **Social Media Integration**- Facebook, Google, Twitter. **EPSON printer and Cash drawer** -For receipt and cash. **Localization**- for Language translation. **XCTest**- for Testing ,**REST** and **SOAP** API's.

Languages

Swift , Objective c

Projects

1.NEC MobilePOS.(Wipro)

"NEC Mobile POS" is a full-scale POS cash register application that can be installed and used on an iPad.

You can use your iPad as a POS cashier for accounting.Because it is a cloud service, store sales data is centrally managed in a dedicated data center and can be checked in real time from anywhere with an Internet environment.

We support the creation of a nice and convenient store for store owners who have such problems.

In addition, this application is equipped with a linkage function with the reservation management system, realizing convenience not found in POS cash register applications.

1.POS, SelfOrder Terminal, Mobile Order.

Technology: Xcode , Objective C, REST API, SSL Pining , CoreData, EPSON printer.

App store Link: <https://apps.apple.com/jp/app/nec-mobilepos/id743794705>

1. Mahindra IO LMS.

Learning management system, it provides e-learning and survey and monitoring system. Online Quiz and result . Technical video and technical uploads & News and updates. Feedbacks system & online certificates . technical uploads Images , Docs & Excel & Text & PDF files and View. Training Schedules and Queries & response. Technology: Xcode , Swift, REST API and iCloud Integration, FCM

App store Link: <https://apps.apple.com/us/app/io-lms/id1384378174?app=itunes&ign-mpt=uo%3D4>

2. Mahindra Move. (Mahindra & Mahindra)

Technology: Xcode Swift

REST API and Google Location Services and FCM.

It started with an effort. To make our roads fascinating for drivers, to free them from traffic and everyday travel woes, we're taking big steps towards a sustainable environment. It all started with Move!

Move is a carpooling app for corporate employees. It makes a good ride to work connecting Givers (Car Owners) and Takers (Commuters) traveling the same route. Move helps us save on our carbon footprint while we network on the go! It brings to you choice, convenience, and safety

Note: Under development || On Flight Mode

3. With You Hamesha. (Mahindra & Mahindra)

Technology: Xcode , Objective C, REST API and SOAP API, SQLite, FCM, CCAvenue Payment Gateway.
