Projects

Stock Market Predictions with Machine Learning |
<http://127.0.0.1:8000/>

The Stock Market Analysis System is a project aimed at developing a comprehensive software application that assists investors, traders, and financial professionals in analyzing and making informed decisions in the stock market. The system leverages historical and real-time data to provide valuable insights, generate reports, and support investment strategies.

My project is Stock market predictions and i am work on this project as Front end developer
