Projects

PCMC- Property Tax:

- Property tax department is responsible for billing & collection of property tax for all residential, commercial, open plots and other types of properties within PCMC limits held privately or by government.
- We worked on the tool to allow the property tax department to add both property-tax department staff as well as contractors with specific roles.
- The roles are dynamically alterable by the system admin.
- Each role had restricted privileges in the field-force tool. Each user had a unique login with password.
- Technologies: React Js, Bootstrap, HTML, CSS

Young Inspirators Network (YIN):

- Giving students experiential learning by making them participate in live projects and programs; helping in nation transformation.
- This entire process is done through mechanism of Forums of around 12 students each.
- Through the trilogy of Inspire, Network and Deliver, we aim to facilitate personal, professional and social development of the youth. Worked on YIN-web application which is for college student voting and event management application.
- Technologies: React Js, Bootstrap, HTML, CSS

Safety Positioning System:

- SPS is a P2P safety and security application designed keeping in mind safety and security of people in general and women & senior citizens in particular. It assimilates all the essential features like SOS functionality, Track Me, Report Incident, Request for Police escort, Police buddy etc.
- Application also permits citizens for volunteering and helping the person in emergency or any type of perceived threat.
- Technologies: React Js, Bootstrap, HTML, CSS.
