Professional Skills:

- Primary Skills: Angular 5/6/7, TypeScript, MongoDB, Node JS, AVA Framework, GIT, ARAS PLM.

Work Experience:

1) Seligent Consulting Pvt Ltd [May'17 – till date]

1] Project : Smart Requirements Software
Role : Front End Designer

Delivers a comprehensive integration of PLM software solutions for requirements management. It assists users with automation to simplify maintenance of complex requirement models mostly targeted for automotive and aerospace.

2] Project : Seligent IoT Framework
Role : Backend Designer

Automated gardening process where garden is connected to a central server and web-based management platform, which lets customers remotely manage gardens with options to change pump and irrigation timing, adjust settings on the irrigation, and set up alerts.

3] Project : ARAS PLM for managing Loan Application
Role : Analyst

ARAS PLM was configured to demonstrated how loan application process and it's related documentation can be done within ARAS PLM. Multiple Parts, Documents, Forms and workflows in which from loan applicant to loan approval managers participate were showcased.

4] Project : IOT Automation
Role : Test Analyst & Back End Developer

It was designed for controlling appliances. In this we were able to put messages through the web app which was designed using Express framework. Also did endpoint testing for backend using AVA framework.

5] Project : Data Quality Maintenance
Role : Data Analyst

Data Profiling using Wrangler Trifacta.

STRENGTHS

"Can Do" Attitude, Hardworking, Self Motivator
