## WORK EXPERIENCE

JULY 2018 - PRESENT

FIGmd Pvt.Ltd, Pune- Web Development

Works for USA different healthcare registries

### • PEGASUS

- Creating healthcare applications to provide smart health care management and technology solutions.
- Creating smart dashboard which help to monitor the entire application easily.
- Project Dashboard consist of Doctors yearly performance. We have many Hospitals and the number of Clinicians under these two criteria we can add patients and their multiple visits against one practice and one clinician. You can add patient visits using Bulk Upload also.
- We are able to select the measures of selected doctors as per disease. Measures are nothing but the treatment steps for the disease. Also, we can edit the patient demographics and visit details. Front end development is completely based on Redux.
- Developing cool and attractive screens considering the responsiveness and browser compatibility using Material-ui.
- Here we are using React-Json-Material-Ui-Schema library for dynamic work flow.
