ACADEMIC PROJECTS

• **Diploma Project : Lab Management System. (JAVA, MySQL - Database)**

Lab management system is software developed to maintain the record of all student's entries in particular labs. After entering in the lab, firstly every student has to make entry in log book but sometimes they forget to do so. The log book contains fields like student's roll no, name, date & time of current day. Student has to fill all the details manually. All this information is then stored in the database of the administrator.

- **B.E. Project : Students Attendance Management System. (JAVA, MySQL)**

Student Attendance Management System is software deals with the maintenance of the student's attendance details. It is generates the attendance of the student on basis of presence in class. It is maintained on the daily basis of their attendance. the staffs will be provided with the separate username & password to make the student's status. The staffs handling the particular subjects responsible to make the attendance for all students.
