GRAPHIC DESIGNER

## ABOUT ME

Self-taught, I believe rather than scatter myself in different areas of expertise, I invested exclusively within my specialty, which is design, to become the best at it. Hard Working, inspired and determined, I have a decent experience in graphical projects, and will always give the best of myself to bring everyone success. Structured, organized, 'a bit too perfectionist', I never let a creative challenge defeat me. I am a problem solver at heart and can handle a team of designers exceptionally well.
