---

## PROJECT

- **DARWIN - IOT based Home automation application**

Worked as an iOS application developer to build a device controlling iOS iPhone and iPad application. With DARWIN being a centralized hub controlling the devices, we integrated the servers API into a mobile application called DARWIN. The communication with the hub is done through socket.io and http protocol to integrate different of devices like Lights, Shades, Thermostat, Music and Sensors.

- **Chat Application**

We develop chat application which basically consist of one to one conversation, group conversation, add event, assign task, add attachment. Developed a messaging application using socket.io for real time communication and http request to download and upload file on server.

## EDUCATION

- *Bachelor of Engineering in Computer Science -*

**MGI-COET, Shegaon**

SEP 2014 - JUN 2017

- *Diploma in Computer Science —*

**STC, Khamgaon**

JUL 2011 - MAY 2014
