TRAININGS

Embedded Systems

Vector India, Hyd. (Hyderabad) Oct 2018 – Apr 2019

I had taken training on embedded system. And I have good knowledge on C , CPP, 8051, Embedded C, and communication protocols.

ACADEMIC PROJECTS

1) VOICE COMMANDED ARDUINO BASED ROBOT (B.E).

I have done above project in BE. Voice commanded Arduino based robot is mobile robot whose motion can be controlled by the user by giving specific voice command. The speech is received by microphone and processed by voice module. When a command for the robot is recognized, then voice module send a command message to the robot's microcontroller through Bluetooth. The microcontroller analyzes the message and takes appropriate action.

2) GSM BASED WIRELESS SMS DISPLAY.

I have done above project in Vector Institute. A control unit is connected to the notice board. Message sent by the user is received by the control unit. A GSM modem is interfaced to the control unit to receive messages from the users.
