/harshil-raymagiya

Surat, India

## PROFILE SUMMARY

- **Node developer with 1 year and 11 months** of experience in end-to-end development of projects right from requirement specifications, planing, designing, implementation, documentation till closure
- Resourceful in programing languages like **Node, Python(Basic);** exceptional in creating and using database objects like stored procedures, triggers, views, schema, index & tables a
- Created **Notification feature** and **Mobile Login System** with use of different database like **SQL, MongoDB, REDIS, LDAP and FCM**.
- Created and updated APIs which includes use of **Elastic Search**

## FUNCTIONAL SKILLS

- **REAL LIFE SOLUTIONS DESIGN CAPABILITY**
- **CAPABLE TO ADOPT NEW ENVIRONMENT**
- **ENTHUSIASTIC**
- **TROUBLESHOOTER**
- **TEAM PLAYER**
- **ABILITY TO WORK UNDER  PRESSURE AND MULTI-TASK**

## TECHNICAL SKILLS

* PROGRAMING          : C, JAVASCRIPT, PYTHON (BASIC), TYPESCRIPT

* WEB FRAMEWORKS : NODE.JS (SAILS.JS, EXPRESS.JS)

 * DATABASE          : MS SQL SERVER, MONGODB, REDIS, LDAP, ELASTIC SEARCH (BASIC)

* TOOLS          : JIRA, GIT, MSSQL SERVER MANAGEMENT TOOL, NOSQLBOOSTER, POSTMAN, JMETER, VS CODE, ATOM, MS OFFICE

* DEV-OPS TOOL       : JENKINS, DOCKER (BASIC)

## EDUCATIONAL DETAILS

- BE (Information Technology) from Birla Vishwakarma Mahavidhyalaya Gujrat Technological University with 6.7 CGPA
- XII from V.J.Modi School, GHSEB with 73 percentile rank
- X from S.S.V. School, GSEB with 75 percentile rank

## CERTIFICATIONS & AWARDS

- Cleared codeVita's first round in two consecutive year  in 2016 and 2017 which was organised by Tata Consultancy Services.
- Got "X'tra mile Award" for best performer of the team in SRKAYCG

# EMPLOYMENT DETAILS

## JAN 2018 – PRESENT : SRKAY CONSULTING GROUP LLP, SURAT, INDIA

## GROWTH PATH

SEP 2019 – PRESENT                Software Developer
JAN 2018 – AUG 2019                Associate Software Developer

## PROJECTS

### SRK.ONE :

**Duration** : JUL 2018 – PRESENT
**https://next.srk.one**
**Overview**: **SRK One** is an ecommerce web application which sells diamond and gem stones online with respect to different events based Searching of stones and View Request of stones.
**Tech- Stacks**: NodeJS(Sails), SQL Server, MongoDB, REDIS, LDAP, ElasticStack, Python
**Responsibilities**:
=> Developed multiple **API in NodeJs** using **different Databases**
=> Developed **Stored Procedures** in SQL Server
=> Improved performance of Store Procedures in SQL Server which were developed previously
=> Developed **Mobile Login API** with use of **LDAP and REDIS**
=> Developed **Push-Notification Framework** using SQL, Crons, REDIS, Node and FCM
=> Expired all active session immediately after Password change
=> Corrected previously developed Python Scripts and developed pooling of connection in SQL Server
=> Developed and delivered module based on requirement gathered from client
=> Worked with DevOps team to do changes in existing **Crons**(Crontab)
=> Used **Kubernetes** for debugging
=> Used respective **Machine to check log and debug**
=> **Mentored juniors and done code review of them** to maintain code quality

---

### ACCOUNT MANAGEMENT SYSTEM (AMS) :

**Duration** : APR 2018 – JUN 2018
**Overview**: **AMS** is responsible to manage accounts for stone sales.
**Tech- Stacks**: NodeJS(Sails), SQL Server
**Responsibilities**:
=> Developed RESTful APIs
=> Developed Stored Procedures in SQL Server
=> Used **Gitlab for Code Management** and Storing Code on Cloud
=> Used Jenkins for Building Services and Applications

---

### STEERHIGH :

**Duration** : JAN 2018 – MAR 2018
**https://srkaycg.steerhigh.com**
**Overview**: This project is useful to generate any sort of survey and tests.
**Tech- Stacks**: NodeJS(Express), SQL Server, Google Analytics Tool
**Responsibilities**:
=> Started developing RESTful APIs
=> Worked with **SQL with ORM module**
=> Used Google Analytics Tool to analyse user activity on website
