HTML5
CSS3
JavaScript
Angular 4 and 6
Bootstrap 4
C#
SQL

PROJECTS

NeoTrack   *2 years & 9 months*
It is a tool to automate SDLC. With the help of this tool, we can gather requirements from the client. Then based on these requirements we can write Design Specifications and do the Development. After the Development, Tester can test this requirement and can raise PIR(problem incident report) for same. Again this PIR goes to the developer for bug fixes.

ACHIEVEMENTS & AWARDS

Have got recognized twice with Spot award.

INTERESTS

Trekking
Playing Cricket

PERSONAL STRENGTHS

Ability to understand Buisness quickly, lead a team and guide team members on technical grounds.
