- Solved many questions of CodeWars, LeetCode, and CodeZinger.

PROJECTS

RESTAURANT WEBSITE   GitHub Demo Link
Tech-Stack: ReactJS, React Icons, CSS3, React Router
Created a restaurant website which aims to replicate a landing page for the restaurant, highlighting menu, team, and various features.

GYM WEBSITE   GitHub Demo Link
Tech-Stack: ReactJS, React Icons, CSS3, React-Youtube, Responsive Carousel
Created a gym website which aims to replicate the design and functionality of the original website. It includes multiple pages, such as the home page, about us page, training programs page, and contact page. The website is designed to be responsive and user-friendly.

CRYPTOVERSE   GitHub Demo Link
Tech-Stack: HTML, CSS3, ReactJS, Ant Design UI, CoinRanking API
Created a website that provides real-time information, data, and news about cryptocurrencies. Stay up to date with the latest prices, market trends, and news articles related to various cryptocurrencies.

KANBAN BOARD   GitHub Demo Link
Tech-Stack: ReactJS, Recoil, CSS3, MUI, Beautiful DND, React Icons
A Kanban board project helps you manage tasks and workflows effectively. They help teams visualize their work, identify bottlenecks, and continuously improve their processes.

TWITTER CLONE   GitHub Demo Link
Tech-Stack: ReactJS, Recoil, CSS3, MUI, React Icons
This project aims to replicate the core functionalities and user experience of the popular social media platform Twitter. It provides users with the ability to create and share tweets, follow other users, like and retweet tweets, and more.

GOOGLE DOCS CLONE   GitHub Demo Link
Tech-Stack: ReactJS, Recoil, CSS3, MUI, React Icons
This project aims to provide a similar collaborative document editing experience as offered by Google Docs. With this application, users can create, edit, and share documents in real-time with multiple collaborators.

TODO LIST   GitHub Demo Link
Tech-Stack: HTML, CSS3, TypeScript, Bootstrap
Developed a personal project using Angular, showcasing a Todo list application, demonstrated strong learning abilities by successfully implementing Angular concepts while still in the learning phase.

INTERESTS

CHESS:

- Active participant in chess tournaments, earning multiple certificates and awards.
- This experience has honed my strategic thinking, analytical skills, and ability to make informed decisions under pressure.
- These qualities contribute to my problem-solving abilities and logical approach in my work as a frontend developer.
