Sohan Wagh
Frontend Developer

I am a skilled ReactJS Developer equipped with a strong foundation in building dynamic & Interactive web applications.While my primary expertise lies in frontend development, I also possess a solid foundation in backend technologies such as Node.js, Express.js, and MongoDB. Additionally, I have recently started learning Next.js to further enhance my capabilities in creating server-side rendered and static websites.I have hands-on experience in developing various projects, including educational applications, ecommerce platforms, and banking applications.

Experience

JUN-2022 to Aug-2023
USD Services | Hadapsar, Pune 411 028
ReactJS Developer (Frontend)

Responsible for Developing user interface components and implementing them following well-known React.js workflows Redux (State Management).
Collaborated closely with the backend team to seamlessly integrate APIs.
Identified and resolved application issues through troubleshooting and bug fixing.

Live Projects : Educational Website (FullStack) - Eshum Vidya
Live at : - https://eshumvidya.com

- Solely developed and Led the frontend development of Eshum Vidya, an innovative educational platform, creating an interactive website and admin panel from scratch.
- Implemented dynamic features, including subject selection, chapter organization, and interactive tabs for videos, quizzes, and more.
- Integrated Razorpay for seamless payment processing, enabling access to premium content.
- Ensured a user-friendly experience with login options, profile customization, and a dedicated doubt forum.
- Contributed to backend development using Node.js, Express, and MongoDB to create robust APIs.

Technologies Used:
React.js, Node.js, Express.js, MongoDB, React Router DOM, RazorPay (Payment Gateway), Jodit-React (Rich Text Editor), Redux, Thunk, React Redux, Axios, Tailwind CSS, React Player (video player), React PDF (Beutiful PDF Viewver), React Icons, React Toastify (Notifications), Immer.js (Immutibility). Framer Motion (Animations)

Other Live Projects : -
Credit Society - Banking Application , E-commerce Platform
December 2021 - May 2022
USD Services | Hadapsar, Pune 411 028
Intern

I completed a 6-month internship focused on React, where I gained expertise in HTML5, CSS3, JavaScript (ES6), TypeScript, Redux, Tailwind CSS, Material-UI, and ReactJS. Additionally, I received training in converting Figma designs to React components and following best coding practices and React development standards.
