Employment History

Vyas Systems, Pune, Maharashtra
Software Engineer Intern   March 2017 - August 2017

Completed industrial training for 6 months under VYAS SYSTEMS, PUNE which is software Development Company and I developed a project "Perligo" which is eLearning review tool and feedback manager. Perligo helps you collaborate with Project Managers, Designers, Developers, SMEs and Clients in a single platform. Just upload a SCORM package, assign the team members and clients. The main goal was developing an online tool which can be accessible 24/7 and can be used to get reviews and feedbacks from all stakeholders of the project and on time.

Technologies used: Angular 4, Typescript, HTML5, Loopback, Semantic UI.

Nishka Technologies, Pune, Maharashtra
Software Developer   September 2017 - Present

Nishka technologies is a software Development Company, and I currently developinghybrid application "2KB" which is a module that contains various features which solves problems related to you and around you in one single application. (http://bit.ly/2MHTXOe)
