ACCOMPLISHMENT

Built customized Form Builder in ReactJS.

Man of the Match Award in Red Premier League 2019 organized by Red FM, Indore.

Represented RGPV at **University Nationals Chess Championship 2015 and have International FIDE rating**.

HOBBIES

Playing Chess, Badminton, Reading technical blogs, and Dancing.

Germany based client.

Among the use of advanced concepts of ReactJS with MobX, got a great opportunity for designing a Form Builder from scratch, which helped as a form factory used in the application with almost all types of formatted and masked inputs.

Ringblaze — Role: *Front-End Developer*

Team size: 10 developers

Duration: 4 months

Worked for a US-based client developing a CRM system for managing internal organization communication and contacts with Twilio service integrated. Tech stack included ReactJS with Redux Sagas, GraphQL with React Apollo client in conjugation with Postgres DB, project tracking with JIRA board and unit testing with JEST Enzyme.

OTHERS

Rising Litera — Role: *Content Manager*

Description: Community for Readers & Writers, risingliteraofficial.wordpress.com

Team size: 150+ readers and writers

Worked as a core team member, we have curated content from various genres of writing like fiction, story, impromptu, poetry, etc. among a large group of readers and writers from India and abroad. Managing such a big team was a challenging task. I was able to create the website portal based on WordPress from scratch which included various posts from writers, details of the events we hosted, Rising Litera Magazine, and team details.
