🪪 Profile

Highly skilled and motivated Front-end Developer with 2 years of experience specializing in React.js. Proficient in building modern, responsive web applications with a keen eye for design and user experience.

💼 Professional Experience

Equinox IT, *Front End Developer*

07/2021 – present | Pune, India

- Developed and maintained responsive web applications using React.js, HTML, CSS, and JavaScript.
- Optimized website performance and loading times through code and asset optimization techniques.
- Conducted regular code reviews and provided constructive feedback to team members.
- Resolved cross-browser and cross-device compatibility issues.
- Integrated APIs and worked with back-end developers to create dynamic web applications.
- Stayed up-to-date with the latest front-end technologies, trends, and best practices.

Digikull, *Full Stack Developer Intern*

12/2020 – 05/2021 | Pune

- Worked on an Agile-based project and technologies like ReactJS, Django, and DRF..
- Collaborated closely with cross-functional teams, including designers and product managers, to understand project requirements and deliver high-quality solutions.

📁 Projects

School Management System, *Equinox IT*

07/2021 – present

- Worked on the development of a School Management System, a web-based application to streamline administrative tasks and improve communication between students, teachers, and parents.
- Collaborated with a cross-functional team, including back-end developers and UI/UX designers, to implement user-friendly interfaces and ensure seamless user experiences.
- Utilized React.js as the primary framework to build interactive and dynamic front-end components, facilitating efficient data presentation and manipulation.

Food Delivery, *personal project* 🔗

12/2020 – 05/2021

- Collaborated with a team of developers, designers, and product managers to build a responsive web application for a food delivery platform using React.js.
- Utilized React hooks and state management with Redux to manage the application's data and facilitate real-time updates.
