Academic Projects

Title	**"Vishwashanti Udyog Payroll System"**
Description	The development of an attendance management system using biometrics is proposed and through this attendance the salary of the employee is calculated. Managing all employees attendance and then calculate their salary on the basis of it has become a difficult challenge. The ability to compute the attendance percentage and salary becomes a major task as manual computation produces errors, and also wastes a lot of time. For the stated reason, an efficient attendance management system using biometrics is designed.
Project Technologies	C# dot net
